

MISSION: DAIRY

BLAST-OFF!

Directions: Fuel your rocket! Circle dairy foods that total six fuel cells, then color in the fuel cells on the rocket ship!

Your rocket can't blast - off with just dairy...remember your body gets fuel from fruits, vegetables, grains, proteins, and dairy! Eat a balanced plate to have plenty of energy!

Ingredients

- 1 tablespoon + 2 teaspoons of instant chocolate or vanilla pudding mix
- 1 tablespoon + 2 teaspoons of powdered milk
- 1/4 cup of water

Try adding fresh low-fat milk instead of powdered!

Directions

1. Scoop the instant pudding mix and powdered milk into a zip-lock bag.
2. Measure and add water into bag.
3. Shake and knead bag.
4. Optional: add freeze dried fruit for the ultimate space food experience!

DID YOU KNOW...

Scientists at NASA are currently researching how to grow food in space!

When measuring wet ingredients, set the measuring cup on a flat surface and look at the liquid from eye level to ensure you have poured the right amount!

MAKE AN ASTRONAUT MEAL

Rules: Meal must not require refrigeration, it must be able to be eaten in zero gravity, and it must contain an item from all 5 food groups.
