

RULES OF A GOOD DETECTIVE

1

USE YOUR SENSES

You can use more than your mouth to find clues. Your ears, nose, eyes, and hands can also help you solve the mystery.

2

BE BRAVE AND POLITE

Detectives will do anything to solve the case. Give it a try and be brave. If you don't like it that's okay! Just remember to be polite if it's not your favorite.

3

DON'T GIVE UP

Detectives **NEVER** give up! Let your taste buds take some time to figure out what you think of the food. You never know...maybe you'll like it better than the last time you tried it!
